

**50 years of
development
experience**

**150,000
hectares**

Area of Petrochemical
Parks Planned

20 million m³

Bulk Liquids &
Cryogenic Storage

7.8 million bpd

Planned Refining Capacity

100 km

Marine Jetty Berths

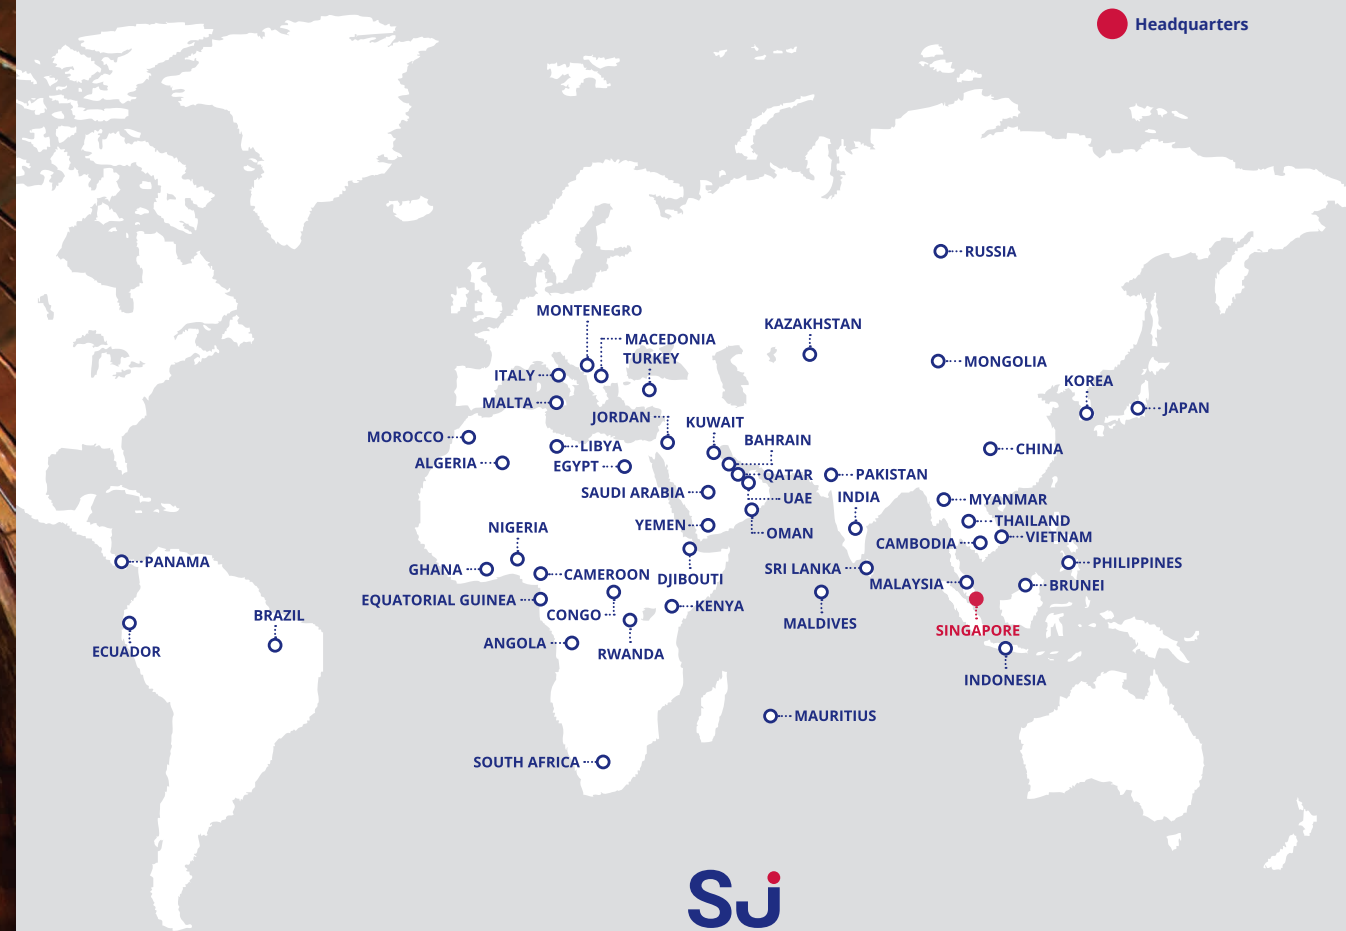

**We deliver total urban
and infrastructure
solutions to support social
and economic growth.**

As one of Asia's leading consultancy powerhouses for urbanisation and infrastructure developments, we have a distinguished track record in shaping Singapore's urban and industrial landscape over the last 50 years.

Our multi-disciplinary team of specialists provides one-stop complete value chain consultancy services harnessed through years of successfully completing a wide array of projects in more than 200 cities in over 50 countries worldwide. We have designed and completed more than a million homes in Singapore, completed master plans for over 30 countries and developed more than 50 industrial parks around the world.

With the acquisitions of SMEC Holdings, a world-renowned infrastructure engineering design, and AETOS Holdings, a total security solution provider, Surbana Jurong has a combined global workforce of over 13,000 employees in over 110 offices across Asia, Australia, Africa, the Middle East and the Americas.

our story

Fuelling Your Visions

With the experience gained from the successful development of Jurong Island Chemicals Hub and other internationally acclaimed petrochemical projects, our integrated solutions will help you to achieve your petrochemicals, logistics and energy infrastructure development needs.

Realising your aspirations are our dedicated, experienced engineering and management specialists, planners, and analysts who can develop sustainable market strategies & reliable design, supporting & value adding throughout the lifecycle of your projects.

our services

DEVELOPMENT PLANNING

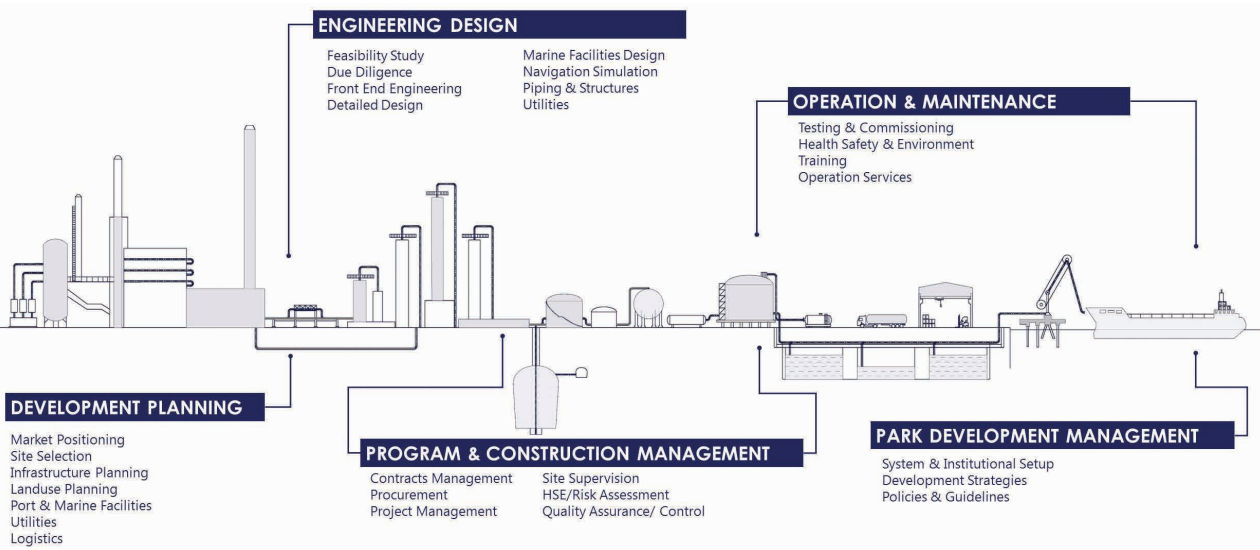

Refinery, Petrochemicals and Storage Logistics Hubs – We are with you right from the start with our end-to-end services, beginning with strategic market positioning studies, site selection, value chain analysis, land use planning, infrastructure & utilities sizing to park development management advisory.

PLANT DESIGN & ENGINEERING

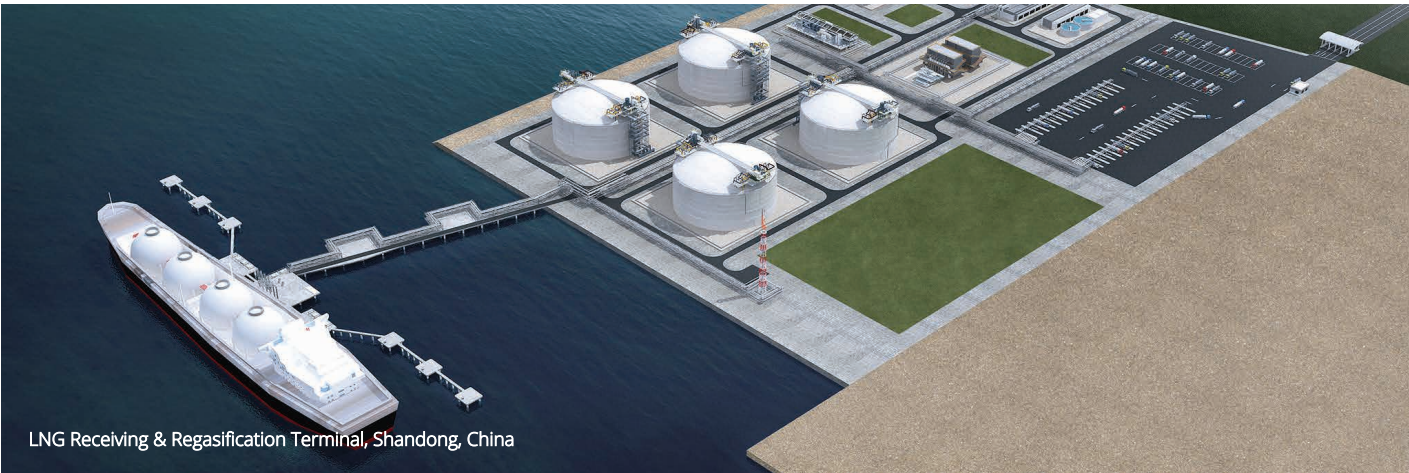

We ensure compliance to best practices and standards while consistently adopting innovative energy efficient technology to enhance our design. Through integration of multi-disciplinary engineering design and technology, our diverse pool of in-house specialists will ensure value creation to your project.

ENERGY INFRASTRUCTURE

From refining to manufacturing processes, storage to distribution systems, marine jetties to on-shore loading facilities, our team of experts will be on hand to develop sustainable energy infrastructure solutions for you. Our services include Techno-Economic Feasibility Studies, Engineering Design & Procurement Services, Plant Commissioning Support & Training, Operation of Storage Facilities, Due Diligence, and Program & Construction Management.

our projects

LNG Receiving & Regasification Terminal, Shandong, China

Halul Island Crude Oil Processing, Qatar

Panjin Liaodongwan Petrochemical Park, China

Very Large Crude Carriers Jetties, Singapore

SOCAR Petkim, Aliaga, Turkey

Horizon Bulk Liquids Terminal, Singapore

On 20 October 2006, the Horizon Terminal Project at Banyan, Jurong Island achieved a significant milestone with the successful operation of the Terminal to receive the first shipment of products at Jetty 1 to Tank Farm 3. This achievement is the culmination of the excellent work by Surbana Jurong from the feasibility and front-end engineering to the commissioning of the Terminal to meet the very challenging project schedule.

Horizon Terminals

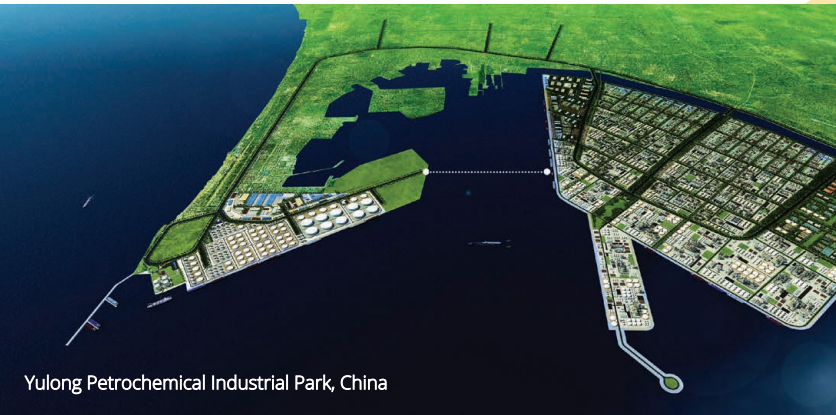

Jurong Island Chemicals Hub, Singapore

Qatar Petroleum Mesaleed Refinery, Qatar

Jurong Rock Caverns, Singapore

Yulong Petrochemical Industrial Park, China

We are honoured that IES has recognised Jurong Island and Jurong Rock Caverns as two of the Top 50 Engineering Feats in the last 50 years. Surbana Jurong is a major partner for both projects and provided strong support in bringing these infrastructure solutions to fruition.
