

our services

Our master plans shape sustainable communities – economic, social and environmental. We understand, interpret and inspire a variety of deliverables to create convenient, equitable, healthy, efficient and attractive environments for the present and future generations.

our approach

Our integrated approach embodies knowledge and experience from various related professional disciplines where all aspects are conceived integrally and thoughtfully, right from the start.

We deliver total urban, infrastructure and engineering solutions to support social and economic growth.

As one of Asia's leading consultancy powerhouses for urbanisation and infrastructure developments, we have a distinguished track record in shaping Singapore's urban and industrial landscape over the last 50 years.

Our multi-disciplinary team of specialists provides one-stop complete value chain consultancy services harnessed through years of successfully completing a wide array of projects in more than 200 cities in over 50 countries worldwide. We have designed and completed more than a million homes in Singapore, completed master plans for over 30 countries and developed more than 50 industrial parks around the world.

With the acquisitions of SMEC Holdings, a world-renowned infrastrucutre engineering design, and AETOS Holdings, a total secuety solution provider, Surbana Jurong has a combined global workforce of over 13,000 employees in over 110 offices across Asia, Australia, Africa, the Middle East and the Americas.

Urban Planning & Design

building cities
shaping lives

our story

Your Vision Becomes Reality

We value your vision – it is the core of our master plan. With our multi-disciplinary team of architects, planners, urban designers and economists, GIS specialists, infrastructure and environmental engineers, we provide holistic solutions for complex urban transformations.

With our keen interpretation of your expectations and needs, our integrated approach will ensure that every plan is visually impactful and reflects an economically viable blueprint of a city designed for people to live, work, play and grow.

Drawing from our vast experience with the legacy of the Singapore story and several pioneering projects both local and overseas, our master plans are developed based on time-tested principles coupled with innovative city planning paradigms to shape aspiring communities.
