Site Supervision

our story

Smooth Progress Successful Projects

Under our watch, your projects progress smoothly. With wide-ranging yet in-depth experience, our dedicated team ensures projects are delivered at top quality and in time.

Whatever the task – construction, demolition, addition and alteration – we have site supervisors with the skills and experience to know what to look out for.

We understand that supervision needs vary by project. That is why we work closely with clients and consultants to find the best fit, so we can deploy the most suitable staff for your site. Our services does not stop there. We work with you throughout the process, from staff engagement through deployment.

our services

OUR SUPERVISION SERVICES COVER EVERY NEED

- ARCHITECTURAL SUPERVISION
- CIVIL & STRUCTURAL SUPERVISION
- PRECAST SUPERVISION
- MECHANICAL & ELECTRICAL SUPERVISION
- QUALITY AUDIT & INSPECTION
- SAFETY & HOUSEKEEPING SUPERVISION
- HORTICULTURE & LANDSCAPE SUPERVISION

We know the crucial role that site supervisors play in making sure that projects are completed on time and according to expectations. Our supervisors' skills extend beyond inspection and supervision, to the checking of drawings and specifications, materials testing, earth control measures, safety and housekeeping.

We cover practicalities such as progress reporting and recording, variation and costs reporting, and compliance with contract documents. On the ground, we are always ready with practical advice such as co-ordinating with government agencies, contractors and developers.

Our work does not stop after the project is successfully delivered. We oversee the handover upon completion, and continue to follow up during the defects liability period. Our site supervisors handle public relations with residents, grassroots leaders, and the public. And through it all, we make sure to keep you in the loop.

We deliver total urban and infrastructure solutions to support social and economic growth.

As one of Asia's leading consultancy powerhouses for urbanisation and infrastructure developments, we have a distinguished track record in shaping Singapore's urban and industrial landscape over the last 50 years.

Our multi-disciplinary team of specialists provides one-stop complete value chain consultancy services harnessed through years of successfully completing a wide array of projects in more than 200 cities in over 50 countries worldwide. We have designed and completed more than a million homes in Singapore, completed master plans for over 30 countries and developed more than 50 industrial parks around the world.

With the acquisitions of SMEC Holdings, a world-renowned infrastructure engineering designer, and AETOS Holdings, a total security solutions provider, Surbana Jurong has a combined global workforce of over 13,000 employees in over 110 offices across Asia, Australia, Africa, the Middle East and the Americas.
