

building cities shaping lives

we are Surbana Jurong

We build homes, design cities, and improve infrastructure for sustainable industrial development and urban living.

Our global team of architects, designers, planners, engineers and other specialists, provides one-stop consultancy across the full urban, industrial and infrastructure development value chain.

With over 50 years of track record in successful project delivery, the Surbana Jurong Group has grown to become one of the largest Asia-based urban, industrial and infrastructure consulting firms. Our global workforce of 14,000 employees across more than 120 offices are driven by progressive thinking and creative ideas.

"Your partner in building cities that are socially, economically and environmentally sustainable; empowering communities to thrive."

full suite capabilities through our member companies

We continue to grow from strength to strength with the addition of member companies – SMEC, Robert Bird Group, KTP, Sino-Sun and AETOS – to the Surbana Jurong Group. Together, we offer expanded capabilities and reach – providing comprehensive sustainable solutions and value-adding to projects everywhere around the world.

“You only need **one
good partner – one
who understands your
needs and can fulfil your
requirements across all
aspects of development.”**

Surbana Jurong Group

Surbana Jurong Private Limited provides one-stop consultancy solutions across the entire value chain of the urbanisation, industrialisation and infrastructure domains. It is headquartered in Singapore and has over 50 years' track record in successful project delivery.

AETOS Holdings Pte Ltd is a leading safety and security solutions provider in Singapore. Serving businesses as well as government agencies, AETOS' services include infrastructure protection, training and consultancy, event and asset security management, and a host of other security and technology solutions.

Member of the Surbana Jurong Group

KTP Consultants Pte Ltd is a leading multidisciplinary engineering firm with more than 40 years track record in engineering and project management.

Robert Bird Group is a specialist consulting engineering firm which offers consulting engineering services across five disciplines within the built environment; Structural engineering; Civil engineering; Construction engineering; Geotechnical engineering (UK only); Digital engineering (BIM Management, 4D Visualisation, and Digital Design).

Member of the Surbana Jurong Group

Sino-Sun Architects & Engineers Co. Ltd is an award-winning multidisciplinary local design institute based in China which specialises in architectural, planning, landscape and interior design.

SMC Holdings Limited is a professional services company that provides high-quality consultancy services on major physical and social infrastructure projects. Headquartered in Australia, its origins date back to the iconic Snowy Mountain Hydroelectric Scheme in 1949.

delivering a **complete value chain**

At Surbana Jurong Group, our multidisciplinary team of experts delivers solutions that cover the entire project life cycle, from planning and design, through to delivery and management, and even decommissioning and closure.

Whether you are looking for complete turnkey solutions or specific service support, we have a complete suite of capabilities across the urban, industrial and infrastructure development value chain to cater to your needs.
